

TRAVEL HEALTH ALERT

Notify the receptionist immediately if, within the past 21 days, you have:

- traveled to **Guinea, Liberia, Nigeria or Sierra Leone**; or
- had direct, close contact with a person known or suspected to have Ebola; or
- handled animals from any of the four countries listed above;
- **AND have any of the below complaints:**

Symptoms of Ebola typically include:

- **Fever (101.5 F or higher)**
- Headache
- Joint and muscle aches
- Weakness
- Vomiting
- Diarrhea

Some patients may also experience:

- Bleeding inside and outside of the body
- Rash
- Red eyes
- Hiccups, Cough
- Sore throat
- Chest pain

The **Ebola virus** has been identified in the above countries and having close contact with blood or body fluids or contaminated medical equipment used on an infected person may transmit infection.

Thank you for protecting other patients, visitors and staff.
